Here's the evidence he took the \$500k from Epstein.

Truth Machine @cryptorebel_SV · Jan 31

Bombshell news. Recent Epstein e-mail leaks show that entities controlled by sex trafficker Jeffrey Epstein funded BlockStream Investments with \$500,000 in 2014 through Joi Ito from the MIT media lab. If only someone had warned the [#Bitcoin](#) and crypto space about this:

When people in \$BCH said \$BTC was hijacked, this is the type of shit we were (and still are) talking about. The sabotage was fairly evident in 2015, but it seems places like r/bitcoin were dead set on censorship and closing off any such discussions
