

⚠ SERVICE ALERT: Passengers traveling between Coliseum and Oakland Airport should expect reduced train frequency as of 10pm tonight until the end of service with an average wait time of 9-minutes due to maintenance work.

⚠ SERVICE ALERT: BART is recovering from an earlier problem. Limited service has been restored on the San Francisco Line between West Oakland and Balboa Park stations. BART service is also running between Colma, SFO, and Millbrae stations. Muni is providing service between Balboa Park and Daly City Station. SamTrans is providing service between Daly City and Colma stations.

⚠ SERVICE ALERT: Free buses will replace trains between Union City and Warm Springs this weekend while crews make track upgrades. Expect delays of 30-40 minutes. Green Line service will not operate between Daly City and Berryessa on these work days. Visit bart.gov for more info.

New transparency initiative increases public's access to BART crime data

The BART Police Department is now sharing reports of Part 1 crimes with the website CrimeMapping.com. The site will process the crime data with its advanced mapping engine to show where the crime has occurred within the BART system. The service is free and available to everyone.

CrimeMapping.com is a component of the BART Police Department's new Computer Aided Dispatch (CAD) system. Crime data from BART will be fed to CrimeMapping.com from our Records Management System. This new technology will increase the efficiency, accuracy and transparency of our crime reporting.

Users can access the information by going to the CrimeMapping.com website and entering a station name in the search box. The information about specific crimes at that station will be displayed on a map along with crimes that have occurred in the surrounding neighborhood if that local jurisdiction participates in the CrimeMapping system. Users can look up the time and type of crime that occurred.

CrimeMapping.com stores the data for up to 180 days. The site can also display the

“This new effort reflects my department’s commitment to transparency and community oriented policing,” said BART Police Chief Carlos Rojas. “Now anyone with an Internet connection will be able to see our crime data. These incidents will be displayed in the context of the various communities served by BART.”

Several large police departments in the Bay Area already provide their crime data to [CrimeMapping.com](https://www.crimemapping.com) . That list includes departments in San Francisco, Oakland, San Jose, Hayward, Richmond and Berkeley.

BART data is now live and users can start searching BART stations at this link: <https://www.crimemapping.com/map/CA/BART> .
